

MODULAR CONNECTIONS, LLC

CONNECTING YOU TO THE BEST BUILDING SOLUTIONS

Prefabricated Park Facilities

Modular Connections' prefabricated concrete facilities are perfect for projects requiring restrooms, concessions, storage, pool houses and other stand-alone buildings.

Our structures are factory built utilizing our 72,000ft² indoor NPCA Certified production facility, assuring the highest level of quality. Once your building is complete, it will be shipped via flatbed to the jobsite and offloaded with a local crane onto a prepared site.

Our team will work with you every step of the way, setting up crane rental, site inspection and nationwide shipping, to make sure everything goes smoothly from design to installation.
